

Bachelor of Biomedical and Exercise Science

Course code: HBES

Course Requirements

To attain the Bachelor of Biomedical and Exercise, students will be required to complete 288 credit points consisting of:

- 96 credit points of First Year Core studies;
- 192 credit points of remaining Core studies.

Students are required to enrol in all units for semester 1 and 2, and are not permitted to enrol in more than 48 credit points per semester as a full-time load.

Credit Points

A credit point is used to measure the study load for a unit. A standard unit consists of 12 credit points, with each completed unit's credit points adding up to meet your required total of credit points to complete your course.

Prerequisites

A number of units within the degree have 'prerequisites'. These prerequisites must be met before enrolment in the unit is permitted. Generally these prerequisites require the successful completion of a unit or units taken at an earlier stage in the course. Students should pay particular attention to these prerequisite requirements as failure to meet these can seriously hinder progression through the course.
